22=501 24=540 25=559 26=590 700C=622

The above pricing reflects the retail pricing of a pair of wheels complete with the appropriate push rims spaced accordingly, Kenda tires, tubes, and rim tape (extremely important on high pressure installations). We will substitute with in stock Schwalbe, Shox, Primo, Innova, MBL, KIK, or any other tires we carry from time to time. Inserts are extra as per the cost in the parts price list.

NOTE: We have a number of other wheels in stock or able to source along with drum or disc brakes; all your needs from daily use, sport, ultra-light through bariatric, etc. We would appreciate your inquiries on all wheels and tires, snap on push rim covers to provide a rubber/plastic replacement for anodized push rims, Fit Grips, etc.
