

# WHICH LOOPWHEELS DO I NEED?

Discover the best Loopwheels for your active manual wheelchair by answering a few simple questions.

**I only or mostly manually push my chair.**

I don't use a front power attachment.

I weigh more than 60kg.

We recommend [Loopwheels Urban](#)

I weigh less than 60kg.

We recommend [Loopwheels LT](#)

**OR**

**I use a power attachment but not off-road.**

I weigh more than 60kg.

We recommend [Loopwheels Urban](#)

I weigh less than 60kg.

We recommend [Loopwheels LT](#)

**I mostly use a power attachment.**

I also sometimes manually push my chair.

I sometimes manually push my chair and weigh more than 60kg.

We recommend [Loopwheels Urban](#)

I sometimes manually push my chair and weigh less than 60kg.

We recommend [Loopwheels LT](#)

**OR**

I almost always use my chair on mixed terrain.

We recommend two options:

[Loopwheels Extreme with Schwalbe Marathon Plus Tyres](#)

(only available in 24 inch)

[Loopwheels Urban](#)

(24 inch or 25 inch)

**OR**

I always use my chair on rough ground or I want Loopwheels as a second set just for off-road use.

We recommend [Loopwheels Extreme with Schwalbe Smart Sam tyres](#)

(only available in 24 inch)
